Income Tax - Enterprise Zone Certification

How do I get a certification form for an enterprise zone income tax credit?

The taxpayer must complete the enterprise zone certification form; DR 0074, DR 0075, DR 0076 or DR 0077. This form must be sent to the enterprise zone administrator who will issue certification to each business located within the zone that such business is in the zone. The business must then attach a copy of the certification form to its Colorado income tax return if the business is claiming an enterprise zone credit.

A list of enterprise zone administrators, their address, phone number, fax number, and email address is available in FYI General 6. The list is also attached to forms DR 0074, DR 0075, DR0076, and DR 0077.
